

The GO!PROJECT consists of five formats:

THE ECODICTATOR (Sci-Phantasy Film for the Big Screen)

GO!TVSHOW (Online Comedy, Portraits, XENIA-Lessons)

GO!HEROES – GO!GOGIRLS (Visions, Social Reports, Live Stream)

GO!SHOP (Food and Stuffs)

LOGO!ECO (Slapping one in the ticker, Graveyard Eternal)

All formats are committed to kindred ideas: To sharp Awareness for the dramatic but largely ignored or played down state of our planet, for all our futures. The time is ripe for a more fervent confrontation, as we propose it.

Wherever the GO!PROJECT was presented so far, responses have been invariably encouraging. This is true both for America as well as Germany. Three years it has taken to get to those results that we intend to deliver to you very briefly.

Approval signals success that can already be tasted. But it depends largely on how much energy we can devote to the matter. It requires initial funding, which will pay off later most certainly. Read what we have to offer. And wonder if it wouldn't be helpful in many ways, to yourself and to mankind to promote the GO!PROJECT with your risk capital to come to its feet.

As holder of internally regulated individual rights, we have joint forces to foster the project and invite you to become partners.
